

South Western School District - NEW Intranet Site

To access our NEW Intranet site go to this URL: swvibe.swsd.k12.pa.us

This page will be our NEW default web page starting next year. This “*Student Portal*” will contain links to everything a STUDENT needs – and some that you will use as well. Since there are some documents and links that are for TEACHERS only, we also created a “*Teacher Portal*”. In the upper right hand of the page is a link for you to Login. Only Professional Staff can login to the Teacher Portal.

- Manheim Library
- Park Hills Library
- West Manheim Library

Welcome to the Student Portal!!

On this page you will find frequently used links all on one page. This page is a work in progress and we will be adding new content as we go, please check back to see any new updates.

On the left hand side are links to each of our Building web pages, links to our HUBS, various web portals, our MyBigCampus site, and some help links.

On the right hand side we have a link to the Sapphire Community Portal where you can check your grades. We also have Academic Links. These links point to all of the web-based sites students use on a daily basis. Finally we have Reference links where students can access Follett, Discovery and each buildings Library web page.

To Log In, simply enter your network credentials – remember to use the underscore between your first and last names.

The Teacher Portal has all of the links from the Student Portal, PLUS links and documents that are just for you. On the left hand side are links similar to the Student Portal. In the middle of the page we are putting Employee Information that you can access. On the right hand side, we added Professional Links, Professional Growth, a Document Repository, and Workspaces.

I hope that you will find this NEW Intranet useful. I there are links that may be beneficial to all, please let me know as we strive to continually improve the site.

In case you were wondering... Yeah, there's an app for that too!! Novell Vibe is available on both IOS and Andriod markets.
